2014-2015 Viewbook

From the President

*Kristi L. Mollis, M.B.A.
President/CEO
Everglades University*

Dear Student,

On behalf of our dedicated staff and faculty, it is a pleasure to welcome you to Everglades University. I am confident our focus on our students, our attention to detail, and our commitment to your success will provide for a unique academic experience.

It is our goal to exceed your expectations by playing a key role in your professional development as well as your personal enrichment. Our small classes, our one-class-at-a-time delivery system, and your easy access to industry-experienced faculty will facilitate an enriched learning environment.

Whether you attend an Everglades University campus or a virtual environment from a computer across the country, you'll find enthusiastic faculty and motivated classmates. If you, like most of our students, work full-time while earning your degree, you'll find an atmosphere conducive to juggling life's responsibilities while expanding your career possibilities.

Congratulations on your educational choice and thank you for entrusting your future to Everglades University.

Sincerely,

A handwritten signature in black ink, appearing to read "Kristi Mollis".

*Kristi L. Mollis, M.B.A.
President/CEO*

The Everglades University Advantage

Small Class Sizes

The small classes at Everglades University provide greater interaction between you and the faculty and will offer the opportunity to achieve your educational goals in a supportive, compassionate, and professional environment. Our convenient schedules will allow you to work full-time or part-time while completing your degree.*

** Please contact the campus of your choice for class schedule availability.*

One Class at a Time

In the undergraduate degree programs at Everglades University, students complete one class per month. Taking one class at a time promotes concentration in each individual class and will allow you to balance your education with the daily demands of our modern fast-paced world. In the graduate degree programs at Everglades University, you can complete one or two classes within a two month time period.

“No Hassle” Approach

As a student at Everglades University, you will never have to be concerned with scheduling classes or needing a class that may not be offered in a particular semester. Everglades University’s “no hassle” approach to scheduling means that we build your entire schedule until graduation. You will not have to go through the aggravation of standing in long lines to register for class or obtain your class materials. Furthermore, your schedule will reflect only the classes necessary for your degree. You will not have to experience registering for an unnecessary class or encounter gaps in your schedule. An accurate schedule tailored to your degree program allows you to graduate as quickly as possible.

Quality Education

Industry experts evaluate Everglades University’s undergraduate and graduate degree programs. This industry-monitoring process helps to ensure that your curriculum is consistently up-to-date and in accordance with industry standards.

Academic Advising

Academic Counselors are available to you in person, via phone, or online. During your academic advisory meetings, you will discuss your schedule, progress reports, grade point average, and attendance. Your Academic Counselor will help to assist you in reaching your academic goals and aspirations.

Accreditation

Everglades University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor's and master's degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Everglades University.

Everglades University is a member of the Independent Colleges and Universities of Florida (ICUF). For additional information, please contact ICUF at 542 East Park Avenue, Tallahassee, FL 32301; phone (850) 681-3188 or by fax (850) 681-0057. Additional information regarding this institution may be obtained by contacting the Commission for Independent Education, Florida Department of Education at 325 West Gaines St., Suite #1414, Tallahassee, FL 32399; toll-free (888) 224-6684; fax (850) 245-3234.

Military Students

Everglades University is approved for veteran's training and provides processes to determine credit awards and learning acquired for specialized military training and occupational experience when applicable to a servicemembers degree program.

Bookstore

The Everglades University Bookstore offers a number of services that make returning to school a "no hassle" process. If you are an online student, once you are registered for class the bookstore provides automatic shipping of your books. Additionally, the on-campus bookstore gives you the opportunity to select your books in a relaxed "no hassle" environment. Please purchase apparel and gifts through our online bookstore at: www.EvergladesUniversity.edu

Student Services

The Department of Student Services is available to assist you in various ways throughout your educational journey at Everglades University including your transition into the workplace environment. Prior to and after graduation, Student Services will advise you in career development skills such as résumé writing, cover letter writing, and interviewing skills that are necessary within the professional workplace environment. Furthermore, Student Services will assist you in your search for employment. By utilizing a variety of resources such as a national web-based placement service at www.CollegeCentral.com/EvergladesUniversity. Our Student Services Department works with both graduates and employers to build employment opportunities but does not promise or guarantee future employment.

Florida's Statewide Course Numbering System

Courses offered at Everglades University are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions.

Dedicated Faculty Make the Difference at Everglades University

Industry-Experienced Faculty

Our faculty's real-world experience, in conjunction with their academic credentials and accomplishments, gives them the strong background needed to relate classroom theory to the workplace and eventually your new career. Our faculty members hold either a Master's or Doctoral degree in their area of specialty.

History

The history of Everglades University is both unique and diverse. Over the past two decades, the university has grown from a small college specializing in the aviation field to a comprehensive university offering both bachelor's and master's degrees in multiple disciplines. Everglades University began in September 1990 when American Flyers College (now Everglades University) was founded in Fort Lauderdale, Florida. In the fall of 1999, the name was changed to Everglades College. In 2003, Everglades College expanded to the West Coast of Florida with the opening of the Sarasota Branch Campus. Later that year, Everglades College received approval to offer Master's Degrees. In December of 2003, Everglades College officially changed its name to Everglades University and in April of 2004, relocated its main campus to Boca Raton, Florida. In August of 2004, the University was granted approval to open the Orlando Branch Campus. In September of 2014, Everglades University was granted approval for its off-campus instructional site of the Sarasota Branch Campus in Tampa, FL. In October of 2014, Everglades University was granted approval to relocate the Orlando Branch Campus to its new location in Maitland, FL.

Your Success is Our Success: *"EU's administration and faculty always made sure I met my commitments and goals."*

"I have been working in my industry for eleven years. Everglades helped me reach my next step in my career path. Lessons learned here will help me continue taking those steps toward my future."

– Nate Curtis, Construction Management Graduate, 2014

"My experience as a student at Everglades University has been incredible. When I made the decision to return to school, I truly became part of a family. A family supports, encourages, and praises. My peers have encouraged, guided, and praised me throughout this important time of my life. EU's administration and faculty always made sure I met my commitments and goals."

– Diana Linville, Alternative and Renewable Energy Management Graduate, 2014

Everglades University Campuses

Boca Raton Campus/Online Division

The Main Campus of Everglades University is located in Boca Raton, Florida, which is conveniently accessible for residents of both Palm Beach and Broward Counties. The Boca Raton Campus provides ample free parking and is easily reached by I-95, Tri-Rail, and public bus service. The University building encompasses over 37,000 square feet of air-conditioned and well-lit offices, classrooms, computer labs, a library and a student lounge. The Online Division of Everglades University is located on the second floor of the Boca Raton Main Campus.

Boca Raton has been described as a cosmopolitan metropolis offering a tropical paradise lifestyle. Boca Raton is a large community with an abundance of beautifully designed and landscaped residential neighborhoods and is home to a thriving business community. With beautiful sprawling Atlantic beaches, nature preserves, and parks, Boca Raton has a great deal to offer individuals of all ages.

Sarasota Campus

The Sarasota Branch Campus of Everglades University is located in a spacious three-story building just off I-75 and University Parkway in Sarasota, Florida. The university occupies approximately 36,000 square feet of space. This includes well-lit offices, classrooms, two computer labs, two student lounges and a student career center. The Sarasota Campus shares a spacious library with a relaxing study area and a large auditorium with state-of-the-industry technology with Keiser University. The campus is surrounded by a beautiful landscape of 20 plus acres bordered by Lake Osprey. The Sarasota Campus is a branch of the main campus in Boca Raton, Florida.

Known as a beautiful vacation spot for tourists, Sarasota has become home to a diverse population. Sarasota offers gorgeous sprawling beaches, a number of leisure activities, cultural events, museums, and a magnificent year-round climate. Furthermore, Sarasota is home to a flourishing business environment. The city of Sarasota maintains a vivacious recreational and cultural community.

Orlando Campus

The Orlando Branch Campus of Everglades University is located in a spacious 28,000 square-foot building on Trafalgar Court, Maitland, Florida. The facility houses well-lit offices, classrooms, a computer lab, a library, faculty lounge and a student lounge. The campus is conveniently located close to I-4, the Sunrail Station, Orlando International Airport, Altamonte Mall, and Florida Hospital. The Orlando Campus is a branch of the main campus in Boca Raton, Florida.

Tampa Site

Our Tampa off-campus instructional site is located just a few minutes from Highway 589 and Memorial Highway hosted in a 66,000 square foot facility. The three – story building features classrooms designed for an ideal learning environment; a computer lab, library, student lounge, 17 classrooms, 3 laboratories, and 15 offices. The off-campus instructional site of the Sarasota Branch Campus is the newest campus location for Everglades University and offers a convenient option for those in or near the Tampa area.

Graduate Degrees

Master's Degree in Aviation Science

The Master's Degree in Aviation Science (MAS) provides a unique learning experience for aviation industry professionals. Combining a variety of aviation and aerospace courses, this program will enable graduates to broaden their knowledge of the aviation industry by understanding relevant theories and principles of aerospace and their application to real-world situations.

Students will complete technical aviation coursework that will include intensive analysis of airway transportation systems, aerospace communication systems, aviation human factors and psychology. Concentrations are available in Aviation Operations Management, Aviation Security, and Business Administration. Graduates will be skilled in advanced research, formal writing techniques, and prepared for a beyond entry-level career in aviation.

Graduate degrees with concentrations and capstone courses are available.

Master's Degree in Public Health Administration

The Master's Degree in Public Health Administration (MPH) provides students with a well-rounded view of the field in public health. The MPH curriculum implements a challenging and creative learning environment with an intensive program of study that has a broad-based administrative emphasis. A concentration in

Complementary and Alternative Medicine (CAM) is available with this degree program. This concentration gives the student a unique perspective on the emerging field of Complementary and Alternative Medicine integration within healthcare systems and policy. The degree offers personal fulfillment by working towards improving the public's health and well-being.

Master's Degree in Entrepreneurship

The Master's Degree in Entrepreneurship is designed to administer a challenging learning environment with an emphasis on entrepreneurial theories and practice. This program provides students with the skills needed to understand the risks and rewards associated with developing a working model from which to start an innovative business venture. As a graduate, you will be able to analyze various models and demonstrate effective decision-making practices. This Master's Degree in Entrepreneurship will prepare you for a career as an Entrepreneur.

Earn your Master's Degree in less than one year.

Master's Degree in Business Administration

The Master's Degree in Business Administration (MBA) will qualify students to meet the market conditions that require graduate degrees for middle-management or higher-level employment. This program can also equip you with the knowledge that is necessary to launch your own business. The MBA program is designed to provide you with advanced theoretical concepts and knowledge from all functional areas of business through an analytical, decision-making process which focuses on solving practical problems. Concentrations are available in Accounting for Managers, Aviation Management, Construction Management, Human Resource Management, and Project Management.

A Graduate Business Capstone Course is also required as a culmination of this intensive program, allowing prospective graduates to demonstrate their newly acquired skills and expertise in the field of business administration prior to embarking on their careers.

Apply online at EvergladesUniversity.edu

Undergraduate Degrees

Bachelor of Science in Alternative Medicine

The Bachelor of Science Degree with a major in Alternative Medicine will prepare students for entry-level careers in the alternative medicine environment such as chiropractic, acupuncture, physical therapy, rehabilitation, hospitals, wellness centers, and spas. Students entering this program with previous vocational, technical training, or an Associate's Degree will gain the knowledge necessary for advancement in the alternative medicine environment. Everglades University is proud to be one of the few regionally accredited universities offering such a comprehensive alternative medicine degree program. This degree will empower the graduate to become a well-rounded and educated professional with a broad basis for decision making in the ever-changing field of healthcare. A concentration in the science studies is ideal for students preparing for advanced education.

In addition, this program will furnish students with an understanding of the different modalities associated with alternative medicine. Program courses include but are not limited to Herbology and Botany; Nutrition and Aging; Dietary Influences on Disease; Alternative Approaches to Arthritis, Cancer, and Heart Disease; Feng Shui; Detoxification and Healing; Ayurvedic Medicine; Naturopathy; Antioxidants; and Traditional Chinese Medicine. The Bachelor of Science Degree with a major in Alternative Medicine will enable you to successfully incorporate a more holistic approach into your career.

Undergraduate degrees with concentrations and capstone courses are available.

Bachelor of Science in Aviation/Aerospace

The Bachelor of Science Degree with a major in Aviation/Aerospace delivers a solid general education combined with the flexibility for coursework covering a wide range of specific aviation courses and a strong selection of management courses. The program provides the aviation professional with an extensive academic background to complement his/her aviation technical background whether it is in Air Traffic Control, Aviation Maintenance, Flight Operations, Dispatch Operations through verified FAA Certifications or Military Aviation Operations. Individuals not holding FAA Certifications will be able to complete the program with required coursework.

This degree program enhances graduates' use of aviation/aerospace analytical and communication skills to obtain an understanding of general aviation/aerospace principles, laws and regulations, operations as well as specific skills and knowledge based on their concentration selected. Concentration areas include Aviation Safety, Flight Operations, Management, Aviation Maintenance Management, Aviation Operations Management, and Aviation Security. Graduates will be equipped to meet the challenges of the diverse and dynamic aviation industry.

Bachelor of Science in Construction Management

The Bachelor of Science Degree with a major in Construction Management prepares graduates for a productive career in the industry as a construction manager, project manager, and many more occupations. This degree program focuses on the management skills and business knowledge required for the continually changing environment of the construction industry.

Students will complete general education studies and courses in construction subjects such as Electrical Systems; Construction Law; Construction Contracts; Construction Cost Estimating; Construction Ethics; Building Codes and Quality Control; Construction Scheduling; Construction Safety; Construction Techniques of Superstructures; Codes and Standards; and OSHA Standards. Additional management courses include: Project Management for Construction; Managing a Construction Project; Financial Management; and Operations Management in Construction. Graduates of this program will be qualified for productive management careers in the construction business with knowledge in construction ethics, estimating, and contracts. Courses included in this comprehensive program prepares graduates for the LEED Green Associates exam in order to become a Certified LEED Green Associate.

Bachelor of Science in Surveying Management (for Construction and Roadway)

The Bachelor of Science Degree with a major in Surveying Management delivers instruction in management skills and surveying for construction industry specific technical and occupational subjects, such as surveying for route and boundary, platting, and geotechnical technology.

Students will obtain a solid general education and extensive training in business and management applications as well as law, regulations, planning, design, theory and methods used in the surveying field. Graduates of this program will be prepared for productive management careers in surveying for construction and roadway.

Visit our website for detailed degree program descriptions and course listings.

Bachelor of Science in Alternative and Renewable Energy Management

The Bachelor of Science Degree with a major in Alternative and Renewable Energy Management will enable you to explore with a broad based knowledge of the sustainable energies industry combined with a general education foundation and business and management applications. Courses include Solar Energy and Photovoltaics; Energy and the Environment; Alternative Energy Safety; Nuclear Energy; Wind Energy; Geothermal Energy; Hydroelectric Energy; and Managing an Alternative Energy Project.

Emphasis is placed on communication skills, global awareness, management skills, critical thinking, codes and standards, and construction and environmental regulations and requirements. As a graduate of this program, you will be prepared for a productive management career in the alternative and renewable energy environment.

Undergraduate Degrees

Bachelor of Science in Crisis and Disaster Management

The Bachelor of Science Degree with a major in Crisis and Disaster Management delivers instruction in business and management skills and crisis and disaster management specific technical and occupational subjects, such as terrorism, threat, and emergency preparedness. Courses include, but are not limited to Emergency Preparedness and Response; Disaster and Society; Terrorism and Homeland Security; Relationship Management; Emergency Management and Public Policy; Basic Emergency Planning; and Disaster Health Management.

Emphasis is placed on communication skills, global awareness, management skills, critical thinking, theory, planning, management, response, relief, recovery and specific cases associated with public emergencies, disasters, and catastrophes. As a graduate of this program, you will be prepared for a valuable career in the crisis and disaster management environment.

Undergraduate degrees with concentrations and capstone courses are available.

Bachelor of Science in Land and Energy Management

The Bachelor of Science Degree in Land and Energy Management focuses on the management skills and business knowledge required for students to enter professions involved in land and mineral rights acquisition for fossil fuel and renewable energy resource development. This degree program delivers instruction in specific technical and occupational subjects such as Land Use Planning Regulations, Oil, Gas and Energy Geopolitics and Law, Communication and Environmental Justice, and Geographic Information System Data Analysis and Mapping (GIS).

Students will obtain a broad based knowledge of negotiations in landwork and energy industries combined with a general education foundation. Emphasis is placed on communication skills, global awareness, management skills, critical thinking, law and policy and environmental regulations and requirements.

Bachelor of Science in Environmental Policy and Management

The Bachelor of Science Degree with a major in Environmental Policy and Management delivers an understanding of several emerging fields of study including global environmental change, environmental planning, and environmental sustainability. The degree focuses on the management skills and business knowledge required for students to enter professions involved in government and environmentally related professions.

Instruction in environmental policy, specific technical and occupational subjects, such as the impact of industrialization on the environment, regulation and law, climate change and environmental technology and management are included in this comprehensive degree program.

Bachelor of Science in Business Administration

The Bachelor of Science Degree in Business Administration gives students the opportunity to explore industry specific topics including International Business, Management Information Systems, Marketing Management, and Research and Statistical Analysis. As a student in this program, you will learn how to effectively collect, analyze, and present information necessary to make sound business decisions in the ever-changing global business world. Additionally, you will learn the relevant techniques that are necessary for effective problem solving and acquire the skills and knowledge that will serve as a strong foundation for your career.

The Bachelor of Science Degree with a major in Business Administration will also provide you with a well-rounded view of the purpose, operation, and management of business entities. This program of study will prepare graduates for managerial employment positions such as managers, assistant managers, supervisors, and other related administrative assignments in the business environment.

Bachelor of Science in International Business

The Bachelor of Science Degree with a major in International Business offers instruction in business management skills. Students can examine courses in Management Information Systems; Global Strategy and Policy; Politics in International Business; Marketing Management; Negotiation Communications and much more. This program of study will prepare graduates for managerial employment positions such as managers, assistant managers, supervisors, and other related administrative assignments in the business environment, globally.

Visit our website for detailed degree program descriptions and course listings.

Bachelor of Science in Hospitality Management

The Bachelor of Science Degree in Hospitality Management provides students with a comprehensive curriculum of hospitality management entities from a financial, economics, marketing and management perspective combined with a solid general education foundation. Graduates will understand a variety of the hospitality management principles that include analytical, technical and critical thinking skills to solve problems in an ethical manner and communicate effectively in today's business environment.

Topics covered include Convention and Exhibition Management, Front of the House, and Business and Technology of Sustainability. This program of study will prepare graduates for managerial employment positions such as managers, assistant managers, supervisors, and other related administrative assignments in the field.

Admissions Procedures

The admissions policies of Everglades University were developed to ensure that all students have a reasonable expectation to complete their chosen degrees. To learn more on how to become an Everglades University student, please contact the Admissions Office or log on to our website at www.EvergladesUniversity.edu to submit an application. Applicants should submit their applications well in advance of the start date desired to permit proper scheduling and assure availability.

Our Admissions Offices are open throughout the week during the following hours: Monday through Thursday, 9:00 am- 8:00 pm; Friday, 9:00 am- 5:00 pm; and Saturday, 9:00 am- 5:00 pm and by appointment. The University reserves the right to deny admission to any prospective student that in their judgment poses an undue risk to the safety or security to the University and the University community. This judgment based on individual determination; take into account any information the University has about a prospective student's criminal record including present secondary school campus students.

Key elements to success at Everglades University:

- An Admissions Counselor will assist and guide you, from beginning to end, in all aspects of the admissions process. Any questions or concerns that you may have about the admissions process can be answered by your Admissions Counselor or may be directed to the Director of Admissions.
- Financial aid is available for those who qualify. Contact the Financial Services Department to speak with a Financial Aid Officer at your campus of interest.
- All local applicants are encouraged to visit the University in person.
- The University utilizes a rolling admissions policy. Applicants will be notified of their acceptance or rejection to the University.
- All admissions services are conducted on an equal opportunity/equal access basis.
- Everglades University provides employment placement assistance, however, we do not promise or guarantee employment.
- Online tutoring is available to students through the tutoring system called Smarthinking, 24 hours a day, 7 days a week. Smarthinking tutoring includes live, on-demand tutoring; in addition to a writing lab.

In order for Everglades University to provide these services, applicants should demonstrate to the University both the ability and motivation to succeed.

Admissions Requirements for Undergraduate Students

In order to be considered for enrollment at Everglades University, all applicants must:

- Complete an application for admission
- AND
- Provide verification of high school graduation or verification of GED completion (subject to validation by University Official)
- OR
- Provide verification of graduation from an accredited college or university
- OR
- Provide verification of graduation from a foreign institution comparable to a U.S. secondary school or university
- AND
- Provide a non-refundable fifty dollar application fee
- AND
- A student should make arrangements to take Everglades University's entrance examination or provide results of a Scholastic Aptitude Test (SAT) or American College Testing exam

(ACT). The University's requirements for admission are a score of at least 15 on the University's entrance exam, or a combined score of 800 on the SAT, or a composite score of 17 on the ACT. Students taking the SAT after March 2005 are required to have a combined score of 1200. Florida's CLAST exam is also acceptable with passing scores or exempt scores (997,998,999) in computation and reading. Any student entering the University with an earned college degree is not required to take an entrance examination. Everglades University reserves the right to accept ten percent of its applicants who do not meet the appropriate entrance test score requirements.

International Students Undergraduate Admissions

Everglades University is proud of the international character of its student body and welcomes students from other nations. All international students must be fluent in English. Applicants may be asked to furnish proof that they can read, write, and speak English fluently. This school is authorized under Federal law to enroll nonimmigrant students.

International student applicants must meet all admissions requirements for undergraduate students and the following requirements for admission to Everglades University:

- Successful completion of a secondary school program equivalent to high school in the United States or graduation from a college or university found to be equivalent to graduation from a college or university in the United States.

All documents submitted in evidence of high school graduation or the equivalent and college credits must be notarized and accompanied by a certified translation if not originally issued in English. Acceptable certified translations may be issued by one of the following organizations: official national government entity such as Ministry of Foreign Relations or Ministry of Education, American Embassy, a U.S. National Cultural Center, or other authorized translator.

- Certification of financial ability to meet tuition and other necessary expenses or ability to qualify for financial aid as an eligible non-citizen.

(And when determination is made by the Director of Admissions)

- TOEFL (Test of English as a Foreign Language) score of 500 or higher on the paper TOEFL; or 173 or higher on the computer TOEFL if a student's primary language is not English.

Students should apply at least two to four months prior to the start of the program to allow time for processing especially if a student visa is needed. International students are required to pay for each semester (period of financial obligation), including tuition, books, and education fees, prior to the start of each semester. International students attending Everglades University on a student visa must be enrolled as full-time students.

Applications for international students can be obtained through the Admissions Office or by visiting the University's website at www.EvergladesUniversity.edu.

Home-School Applicants

Applicants must hold a University recognized High School Diploma or GED equivalence.

Admissions Requirements for Graduate Students

In order to be considered for enrollment for a Master's Degree level program at Everglades University, all applicants must:

- Complete an application for admission
- Provide verification (official transcript) of an earned Bachelor (minimum) or Graduate Degree from a college accredited by an agency recognized by the U.S. Department of Education
- Have a cumulative grade point average of 2.0 at the baccalaureate level on a 4.0 scale or 3.0 at the masters level on a 4.0 scale
- Earn a minimum GMAT (Graduate Management Admission Test) score of 500 or a minimum GRE (Graduate Record Examination) score of 290 (1,000 using the previous reporting scale) is required *
- Complete any necessary prerequisite courses
- Provide a non-refundable fifty dollar application fee

** Applicants with a cumulative grade point average of 2.5 or above on a 4.0 scale at the baccalaureate level will not be required to complete an entrance examination. Additionally, if the student has completed at least 6 semester credit hours at the graduate level with a cumulative grade point average of 3.0 or above on a 4.0 scale will not be required to complete an entrance examination.*

Prerequisite Graduate Admissions Requirements

- Prerequisite courses required for MBA students are: ACG 2001 (Accounting Principles I); ACG 2011 (Accounting Principles II); and STA 2014 (Statistics)
- Prerequisite courses required for MAS students are: ASC 1100 (Introduction to Aeronautics); ASC 1010 (History of Aviation); and ASC 2320 (Aviation Law and Regulations)
- Effective as of January 1, 2012, Prerequisite courses required for ME students are: ACG 2001 (Accounting Principles I); ACG 2011 (Accounting Principles II); and FIN 2001 (Financial Management)
- Prerequisite courses required for MPH students are: HSC 164 (Introduction to Health and Wellness Systems); HSC 2732 (Health Science Research Methods); and HSC 100 (Medical Terminology)

Applicants entering with an accredited bachelor's degree in the discipline or closely related discipline will not be required to complete the prerequisite courses. Prerequisite courses are for those applicants with a bachelor's degree in an unrelated discipline.

International Students Graduate Admissions

Applicants to a Master's Degree program, whose native language is not English, are required to demonstrate English language proficiency before they can be admitted. This school is authorized under Federal law to enroll nonimmigrant students. International student applicants must meet all admissions requirements for graduate students. Additionally, international students who have not attended a high school, college, or university in the United States are required to adhere to the following procedures:

- Successful completion of a secondary school program equivalent to high school in the United States and graduation from a college or university found to be equivalent to graduation from an undergraduate program at a college or university in the United States.

All documents submitted in evidence of high school graduation or the equivalent and college credits must be notarized and accompanied by a certified translation if not originally issued in English. Acceptable certified translations may be issued by one of the following organizations: official national government entity such as Ministry of Foreign Relations or Ministry of Education, American Embassy, a U.S. National Cultural Center, or other authorized translator.

- Certification of financial ability to meet tuition and other necessary expenses or ability to qualify for financial aid as an eligible non-citizen.

(And when determination is made by the Director of Admissions)

- TOEFL (Test of English as a Foreign Language) score of 500 or higher on the paper TOEFL; or 173 or higher on the computer TOEFL if a student's primary language is not English.

Applications for international students can be obtained through the Admissions Office or by visiting the University website at www.EvergladesUniversity.edu. Students should apply at least two to four months prior to the start of the program to allow time for processing especially if a student visa is needed. International students are required to pay for each semester (period of financial obligation) including tuition, books, and education fees, prior to the start of each semester. International students attending Everglades University on a student visa must be enrolled as full-time students.

Admissions Waiver Requirements

Students not meeting all of the undergraduate or graduate admissions requirements may be granted a waiver. If accepted for admission, a student must maintain satisfactory academic progress per the University policy. Everglades University reserves the right to accept ten percent of its applicants who do not meet the minimum entrance test score requirements, taking into account other factors that may indicate a student's qualifications for admission.

"It took me twenty years to take the plunge and make the decision to go back to school. Everglades' flexible schedule for non-traditional students made my decision an easy one. I was able to complete my degree in less time than I had anticipated, while living and working a busy, single mom's life. Thank you Everglades for making my experience so rewarding and allowing me to achieve a lifelong dream."

– Hylida Fenton

2008 Graduate, Sarasota Campus

"I have two wonderful kids and a great career but I wanted more education. Thanks to EU's online option, I was able to further my knowledge while enjoying my family and my job. My boss thinks I'm a genius, my clients have benefited, I have time for my life and I never miss a goodnight kiss."

– Kristie Gilbert

2007 Graduate, Boca Raton Campus

"Everglades University has given me the direction that I needed in my life. All of the staff and professors I have worked with have been the most wonderful, positive people. My life has changed in such an extreme way. EU was my light at the end of the tunnel."

– Kristin Troesch

2007 Graduate, Boca Raton Campus

"My time at Everglades has definitely helped me to improve my position at work. I look forward to using the knowledge I have acquired here at Everglades to progress through the management levels in the company at which I am currently employed. Thanks Everglades."

– Jeffrey Bracey
