**Everglades University Begins Offering a New Bachelor of Science Degree**

***Students can now major in Alternative and Renewable Energy Management***

Boca Raton, Florida – March 15, 2011 – Everglades University has begun a new program a Bachelor of Science degree with a major in Alternative and Renewable Energy Management. This program will be offered at all three Everglades University campuses.

The Bachelor of Science degree with a major in Alternative and Renewable Energy management focuses on the management skills and business knowledge required for the continually changing environment of the energy industry in construction management.

“Our University is committed to programs which both serve our communities and have the future in mind,” stated Kristi Mollis, President of Everglades University. “Everglades University’s mission is to train career-minded individuals and offer innovative programs that will provide employable and skilled graduates in a variety of industries. The growing national concern for our environment and the job outlook for graduates with knowledge in renewable, sustainable, and alternative energy options as businesses begin the process of going green and transitioning their companies to other energy sources is very positive. We are excited about this new degree program.”

President Obama’s administration encourages the investment in the development of renewable energy, which will in turn help to create millions of jobs over time as we transition to clean energy.

The program provides students with a broad based knowledge of the sustainable energies industry combined with a general education foundation and business and management applications. Graduates of this program will be prepared for productive management careers in the alternative and renewable energy environment.

Everglades University is a private, not-for-profit university offering Bachelor’s and Master’s Degrees in majors such as Business, Construction Management, Alternative Medicine, Aviation and Alternative and Renewable Energy Management. Everglades University is regionally accredited by the Commission on Colleges of the Southern Association of Colleges and Schools. The main campus is located in Boca Raton with branch campuses in Sarasota and Orlando.
