AA Hillsborough Community College

"I am glad that I chose Everglades University for my online college courses/degree. All of the staff I have worked with during enrollment have been so nice, polite, and welcoming. I like the structure of the courses, because it works with my busy schedule being a stay-at-home mom. This allows me to work on my degree while I take care of my kids, and work on my business start-ups. I would highly recommend this university for anyone who wants to work and still have a regular schedule and family life. They offer one course at a time, and that's perfect!"

*Nicole Sanchez, 2023, Bachelor's in Alternative Medicine, EU Online*

"From the start, Everglades University's staff and professors were amazing! I learned more than I imagined I ever would. I'm grateful for the opportunity to have had such a wonderful educational journey. The program was engaging, the professors were knowledgeable and attentive, and the curriculum has proven to be relevant in my everyday life. This degree program will definitely benefit me in any journey moving forward in my life, whether it be while pursuing a master's degree, or providing holistic care for my family. I'll never forget the positive and fantastic experience here!"

"I enrolled at EU, because they offered programs and classes that interested me on a personal level, and I was drawn to the smaller scale of its institution. There were obstacles during my program, but the staff and faculty always showed genuine concern with my progress, while still offering enough space to learn and succeed on my own. EU brought me opportunities for professional development, new perspectives, self-satisfaction, and a continuous drive to strive for improvement. I want to thank the wonderful staff of Everglades University for supporting me in both accountability and encouragement throughout my education."
