## **Everglades University Boca Campus Attends the Banyan Aviation Expo**

**Our Director of Admissions, Ms. Grace and our Director of Student Services, Ms. Rubeena attended the Banyan Aviation Expo, where they had the opportunity to meet and connect with aspiring students passionate about aviation. The experience of sharing information about our programs and helping future students discover all the amazing opportunities Everglades has to offer was rewarding. We're excited to welcome new faces to our campus and can't wait to see what's next in their aviation journeys!**

# Graduate Testimonials

**Kayla F.**  
**Bachelor of Science in**  
**Alternative Medicine**

As my time comes to an end here at Everglades university this marks the end of one chapter and the beginning of another. I am filled with so much gratitude! I want to thank Everglades University for providing not only the academic foundation, but also the inspiration and guidance I needed to truly step into this path. I am not only celebrating the completion of my bachelor's degree in Alternative Medicine but the beginning of a deeply personal and purposeful journey. Breaking a generational curse, I am the first woman in my family to graduate from college. If it were not for this University, I would've not been provided with the opportunity and embrace what I am called to do. I am the owner and founder of Rooted Healing , a small business that offers pop- up herbal education experiences that blend medicinal herb uses with hands on learning. I am excited to serve my community and empower them to integrate herbal medicine into their daily lives. This is just the beginning and as I move forward, I carry the values, the knowledge and the strength I've gained here, and I am so excited for what the future holds.

To anyone still on the journey: keep going, it's worth it.

**Alexander A.**  
**Bachelor of Science in Construc-**  
**tion Management**

Graduating with a degree in Construction has been an incredibly rewarding experience. The program equipped me with the technical skills and practical knowledge needed to thrive in the construction industry. From project management to hands-on building techniques, I've gained a comprehensive understanding of what it takes to bring a vision to life. I'm excited to apply my education in the field, where I can contribute to building sustainable, quality structures and help drive innovation in the industry.
