STUDENT TESTIMONIAL

"Prior to coming to Everglades University, I had received my Associate's degree in Drafting and Construction. However, I chose to continue my education at EU Sarasota because the classes have a very flexible structure, and the professors and advisors were top-notch. The professors and staff have made my journey at EU special: from their curriculum, greetings every morning, special events for families and friends, workshops, and online classes - they provide an excellent atmosphere for learning."

While enrolled at Everglades, Max was able to begin his own Drafting business, where he prepares mechanical and architectural schematics for clientele.

"With the education I have received from EU, I have been able to better organize my business, manage project expectations, create a defined construction schedule, and deliver a better product for my clients."
